DATA INFORMATION

The data in this report is gathered from 101 counties in the Missouri Balance of State (BoS) Continuum of Care (CoC). Social service agencies and community volunteers in each county complete a survey for each homeless individual and family located in the CoC.

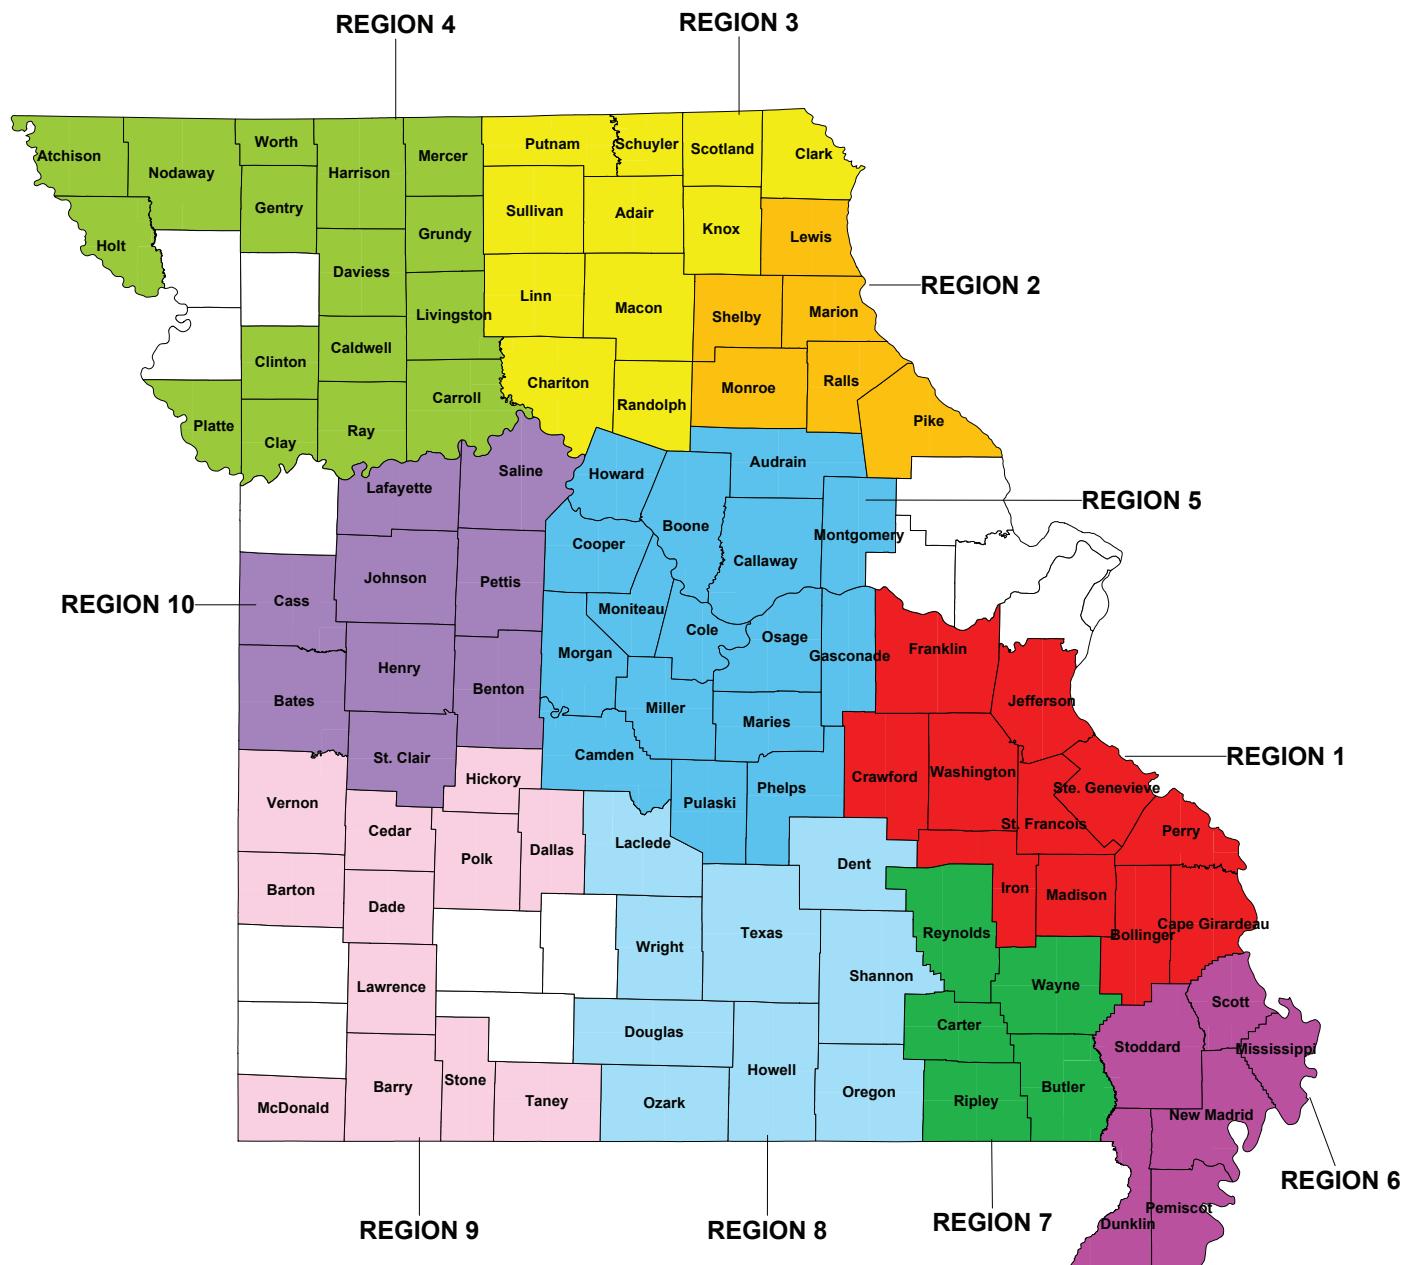

In addition, sheltered data is gathered from social service agencies and organizations providing shelter (emergency shelter, transitional housing and hotel/motel vouchers) to households within the BoS CoC. Together, the sheltered and unsheltered data make up the total number of homeless individuals and families in the BoS CoC. When tabulating data for unsheltered homeless persons, age, gender and race percentages were calculated using the total of all unsheltered persons surveyed. The veteran percentages were calculated using the total of all unsheltered adults surveyed. The disability, victims of domestic violence, chronically homeless and unaccompanied youth percentages were calculated using household information.

When tabulating data for sheltered homeless persons, age, gender and race percentages were calculated using the total of all sheltered persons. The disabled, victims of domestic violence, chronically homeless and veteran percentages were calculated using the total of all sheltered adults. The percentage of households with youth only (unaccompanied youth) was calculated using the total number of households sheltered.

The “unknown/no...” category was used to represent answers left blank or marked “no” on the survey given to unsheltered homeless individuals and families.

For more information on the Point-in-Time Count, or to contact a member of the Community Initiatives department, please visit the MHDC website at www.mhdc.com/ci/point_in_time_count.htm.

DATA INFORMATION

The data in this report is gathered from 101 counties in the Missouri Balance of State (BoS) Continuum of Care (CoC). Social service agencies and community volunteers in each county complete a survey for every unsheltered household identified (living in a place not meant for human habitation) within the BoS CoC. In addition, sheltered data is gathered from social service agencies and organizations providing shelter (emergency shelter, transitional housing and hotel/motel vouchers) to households within the BoS CoC. Together, the sheltered and unsheltered data make up the total number of homeless individuals and families in the BoS CoC.

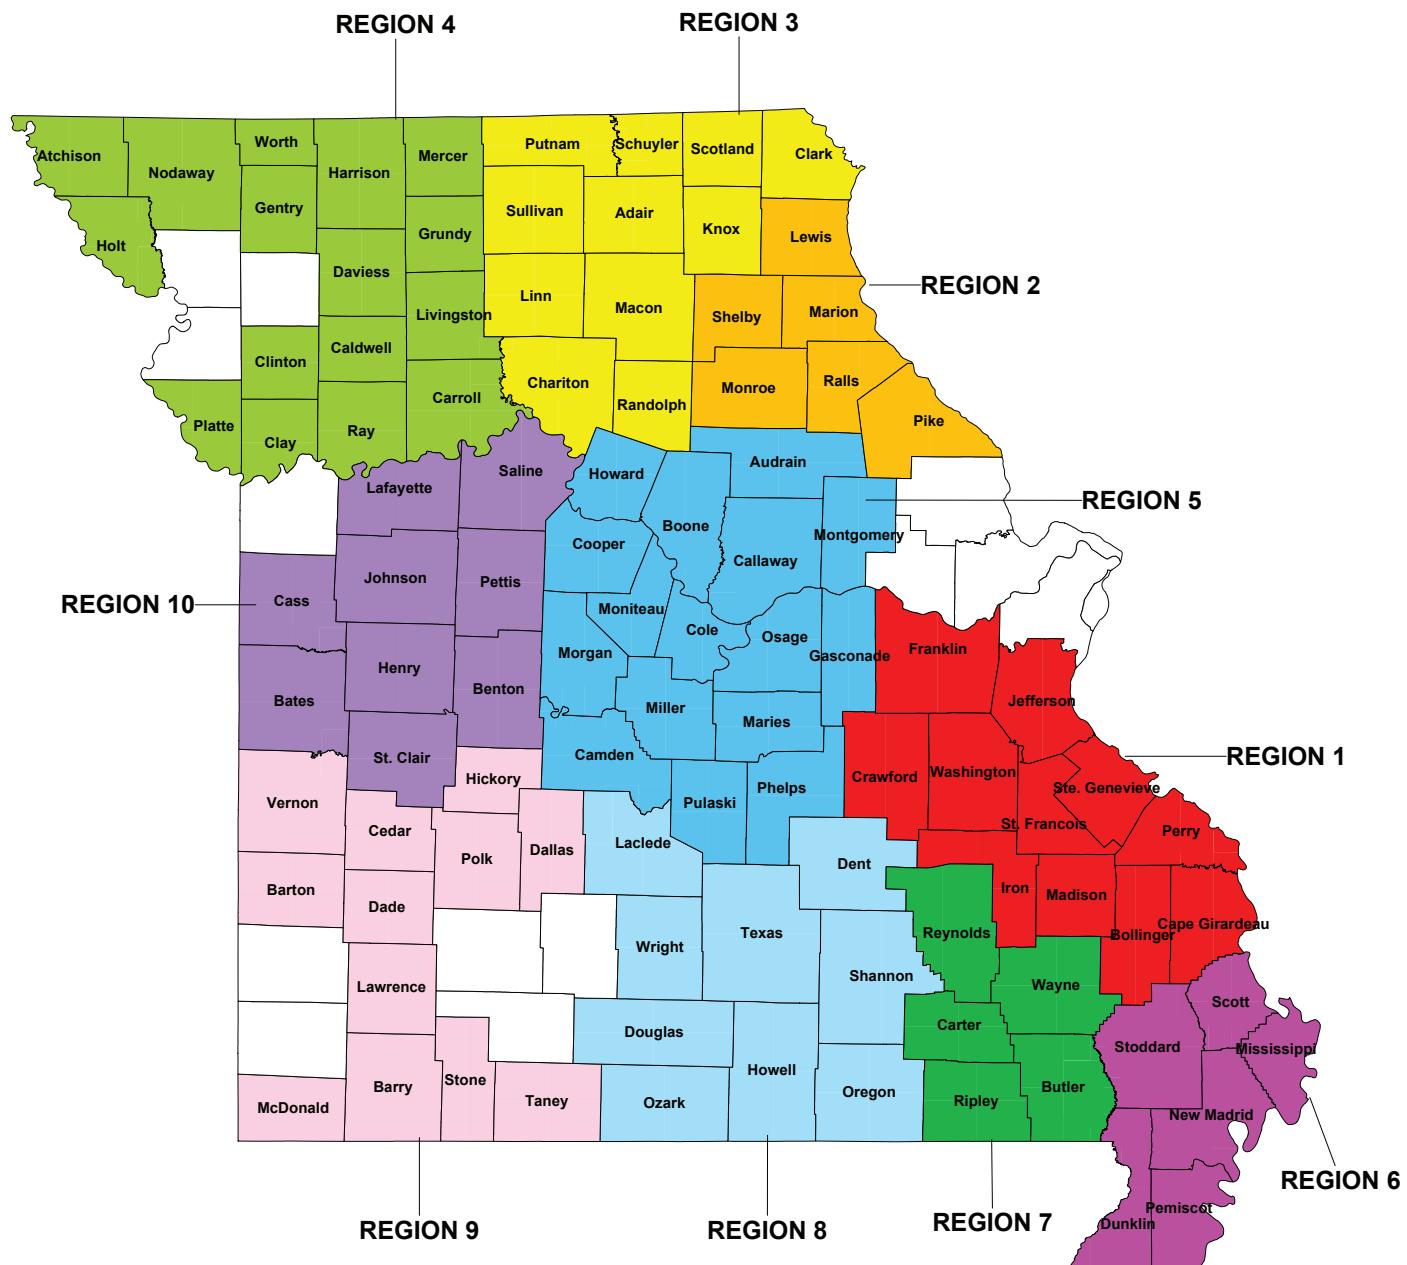

When tabulating data for unsheltered homeless persons, age, gender and race percentages were calculated using the total of all unsheltered persons surveyed. The veteran percentages were calculated using the total of all unsheltered adults surveyed. The disability, victims of domestic violence, chronically homeless and unaccompanied youth percentages were calculated using household information.

When tabulating data for sheltered homeless persons, age, gender and race percentages were calculated using the total of all sheltered persons. The disability, victims of domestic violence, chronically homeless and veteran percentages were calculated using the total of all sheltered adults. Unaccompanied youth percentages were calculated using the total of sheltered youth.

The “unknown/no...” category was used to represent answers left blank or marked “no” on the survey given to the homeless persons.

For more information on the Point-in-Time Count or to contact a member of our community initiatives staff, please visit the MHDC website at www.mhdc.com/ci/point_in_time_count.htm.
